UNIVERSITY
OF MANITOBA

FIELDS

Research papers are sought on all aspects of implementation, application, and theory of automata and related structures. Researchers are invited to submit unpublished original research. Simultaneous submissions to other venues is not allowed. Revised versions of selected papers will appear in a special issue of Intl. J. of Foundations of Computer Science.

Organized immediately after the workshop on Descriptive Complexity of Formal Systems (DCFS 2010, Saskatoon), and followed by a conference on Developments in Language Theory (DLT 2010, London, Ontario).

Submission Deadline: April 9, 2010
