

# COMP 7210: Assignment 1

Due: September 29, 2011, 11:59 PM

**Objective:** Provide a small summary of a paper written by your supervisor, demonstrating good academic honesty practices.

**Detailed Instructions:**

1. Find a paper written by your supervisor from his/her website, or from DBLP (<http://dblp.uni-trier.de/>). You can also ask your supervisor to recommend one of his/her papers.
2. Write a short summary of the paper's main contribution in your own words. Do not provide a direct quotation of the paper in your summary. Your summary should:
  - use proper citation techniques. You should have a full reference to the paper in your assignment (including all authors, source, year and pages).
  - discuss what problem the paper discusses, and what solution the author(s) provides in the paper.
  - be at most two paragraphs long. You should aim to have at most 6–8 sentences in the paragraphs. (Your first paragraph can describe the problem, while the second describes the solution.)
3. Submit your summary as a plain text file (extension .txt) by email to me at `mdomarat@cs.umanitoba.ca`.
