

COMP 7210: Assignment 5

Due: January 31, 2012, 12 Noon

Objective: Write a related work section.

Detailed Instructions:

0. Start a thesis proposal document.
 - (a) Use the thesis proposal template available on the course website for your assignment submission.
 - (b) If you had background material in your Assignment 4, include the revised version in the appropriate section.
 - (c) Include your revised problem statement from Assignment 4.
1. Write a related work section for your thesis proposal.
 - (a) You can use the material you submitted in Assignment 3 if it is appropriate.
 - (b) Write about any other strongly related research papers in your related work section. Most proposals will have somewhere between 6–10 papers described in their related work section.
 - (c) You should strongly consider the organization of your related work section **BEFORE** writing it. You can organize by solution type (if all are solving the same problem), problem type (if they are solving related problems), etc. Organize your related work section into appropriate subsections based on the organization. This type of organization will lead to much clearer writing and better marks.
2. Use \LaTeX and \bibTeX for typesetting.
3. Submit a **PDF** file **only** by email to `mdomarat@cs.umanitoba.ca`. Please name your file `A5FirstName.pdf` (e.g., I would submit a file called `A5Mike.pdf`).
