The Office of the Vice-President (Academic) & Provost and the Office of the Vice-President (Research and International) invite members of the Fort Garry Campus to

**A WORKSHOP FOR ALL FACULTY
AND GRADUATE STUDENT RESEARCHERS**

Research Integrity Matters!

presented by

Professor Nicholas H. Steneck

(Professor Emeritus, University of Michigan).

"The importance of high-quality research cannot be overstated. Research plays a key role in shaping the world in which we live and as such, the integrity of research is vital."¹

WEDNESDAY, OCTOBER 26, 2011

2:30 to 4:30 pm

Senate Chambers

E3-262 Engineering and Information Technology Complex

This workshop will focus on researchers' primary responsibilities, summarize what is known about research integrity shortfalls globally and in a wide range of research areas, and engage in a discussion of what can be done to foster high standards for integrity in research, beginning at the level of the individual researcher and research team. It will be organized around the new Tri-Council Policy on the Responsible Conduct of Research (to be released in the fall of 2011), the Singapore Statement on Research Integrity and other policies relevant to research in Canada. The proposals for future action will be discussed based in part on Professor Steneck's work as a consultant to the US Office of Research Integrity and founder and co-organizer of the World Conferences on Research Integrity.

Please email: karen_grant@umanitoba.ca for more information.

About Professor Nicholas H. Steneck

Nicholas H. Steneck is a Professor Emeritus of History and Director, MICH Research Ethics Program at the University of Michigan. His work on research integrity began in 1984, when he chaired the Michigan's pioneering Task Force on Integrity in Scholarship (1984). From 1991 to 1993, he chaired the Public Health Service Advisory Committee on Research Integrity.

Professor Steneck helped establish the ORI/NIH Research on Research Integrity Program, co-chaired six ORI Research Integrity Conferences (2000, 2002, 2004, 2006, 2008, and 2009) and co-organized and co-chaired the first and second World Conferences on Research Integrity (Portugal 2007, Singapore, 2010). He was instrumental in the development of the Singapore Statement on Research Integrity and is currently the lead advisor for a series of Global Research Integrity courses under development by Epigeum.
